- c) The person accused of engaging in sexual violence will be referred to as the “Respondent” and the person making the allegation as the “Complainant”.

### **2. Definition of Sexual Violence**

Sexual violence means any sexual act or act targeting a person’s sexuality, gender identity or gender expression, whether the act is physical or psychological in nature, that is committed, threatened or attempted against a person without the person’s consent, and includes sexual assault, sexual harassment, stalking, indecent exposure, voyeurism and sexual exploitation.

### **3. Training, Reporting and Responding to Sexual Violence**

- a) Toronto Institute of Pharmaceutical Technology shall include a copy of the Sexual Violence Policy in every contract made between it and its students, and provide a copy of the Sexual Violence Policy to career college management (corporate directors, controlling shareholders, owners, partners, other persons who manage or direct the career college’s affairs, and their agents), instructors, staff, other employees and contractors and train them about the policy and its processes of reporting, investigating and responding to complaints of sexual violence involving its students. \*Any company participating in offering student internships on their premises must provide an undertaking in writing that it is in compliance with all applicable legislation, including the Ontario Human Rights Code and the Occupational Health and Safety Act and will provide students access to those policies should they encounter issues relating to sexual violence in the workplace.

This will be done by:
  - (i) ensuring that all complaints/reports and information gathered as a result of the complaint/reports will be only available to those who need to know for purposes of investigation, implementing safety measures and other circumstances that arise from any given case; and
  - (ii) ensuring that the documentation is kept in a separate file from that of the Complainant/student or the Respondent.
- h) Toronto Institute of Pharmaceutical Technology recognizes the right of the Complainant not to report an incident of or make a complaint about sexual violence or not request an investigation and not to participate in any investigation that may occur.
- i) Notwithstanding (f), in certain circumstances, Toronto Institute of Pharmaceutical Technology may be required by law or its internal policies to initiate an internal investigation and/or inform police without the complainant's consent if it believes the safety of members of its campus or the broader community is at risk.
